MARYLAND, MY PREAKNESS

In the heart of the Triple Crown, is the Triple Crown's heart. Here lies the Preakness, many times referred to as "pivotal" as if logistics had something to do with it. A stop on the way from Louisville to New York...sure...Derby trainers handle their travel plans and schedules carefully but the motivation to stop in Baltimore rests in "want".

Nearly every year, the Preakness has the Derby winner, the last time going without in 1996 (Grindstone). The Derby winner isn't always the favorite, but is usually quite respected. I'll Have Another in 2012, (3.20, second to Bodemeister), Mine That Bird in 2009 (6.60 third to Rachel Alexandra and Pioneerofthenile) Giamcomo (6.00 third to Afleet Alex and High Fly) and Monarchos (second to Point Given) weren't backed by Derby believers, vet since 2000, eleven other times the public bought the Derby winner, rewarding favorite backers in nearly half of the runnings. One notable slight prior was Charasmatic, leaving a tough walk out of Pimlico that Saturday Preakness evening without cashing the \$18.80 ticket on the Derby winner.

Considering its two week spread, the Preakness attracts a generous portion of Kentucky Derby starters moreso than its reputation.

PREAKNESS DAY MAY 16TH, 2015

(cont.)

While last year's contenders of the Derby numbered only two, four or five Derby participants have started since 2009. Many want redemption and seek it as soon as they can get it. The connections of Point Given, Afleet Alex, Lookin' At Lucky and Curlin enjoyed satisfying Preakness wins after exhibiting "what went wrong" Kentucky Derbies.

We know the Preakness as a thriller. Afleet Alex wins after a Scrappy T collision at the top of the stretch in 2005. Two years later, Street Sense and Curlin had a battle for the ages in the last darkest shadows of the wire. In 1996, the blanket finish of Silver Charm, Free House and Captain Bodget had eyes popping between the top and bottom of the television screen. It can be quite the showcase race of great performances where "what" result isn't as surprising as the "how" result. Lost in the double digit margin of Smarty Jones 11 & ½ lengths is Funny Cide's 9 & ½ margin the year prior. Aren't we still waiting for Rachel Alexandra or Shackleford to give up the lead? Still the "Middle Gem" can break your heart as it did in 2006 reminding us that the Preakness isn't perfect.

The Derby chase exposes us to all of the players whether they appeared in Louisville or not. We know the characters by now, If we don't know the players from earlier in their careers, we know them from earlier in the year or month. After two weeks, the Derby is fresh in our minds. Nothing surprises us. We may not know the top winner, but we do who isn't winning. Long shots are few and far between. Perhaps the smaller field creates a race run more true to form. More likely is that everyone knows each other enhancing the entertainment. The Preakness is a tough act to follow.
